AIMS AND SCOPE

The *Journal of Mathematics Education at Teachers College (JMETC)* is a recreation of an earlier publication by the Program in Mathematics Education at Teachers College, Columbia University. As a peer-reviewed, semiannual journal, it is intended to provide dissemination opportunities for writers of practice-based or research contributions to the general field of mathematics education. Although many of the past issues of *JMETC* focused on a theme, the journal accepts articles related to any current topic in mathematics education, from which pertinent themes for future issues may be developed.

JMETC readers are educators from pre-kindergarten through twelfth-grade teachers, principals, superintendents, professors of education, and other leaders in education. Articles appearing in the *JMETC* include research reports, commentaries on practice, historical analyses, and responses to issues and recommendations of professional interest.

COPYRIGHTS AND PERMISSIONS

Copyright for articles published in *JMETC* is retained by the authors under a Creative Commons (CC BY) license. Authors retain permission to use their article in any form or format in connection with their teaching, conference presentations, lectures, scholarly works, and for all other academic and professional activities. Any future work of the authors based substantially on the article published in *JMETC* shall include appropriate citation to the *JMETC* publication.

JOURNAL SUBSCRIPTION

The journal is converting primarily to electronic publication. All *JMETC* issues—including all future and archived issues—will be accessible and available for free electronically online at: jmetc.columbia.edu. To receive an email notification when new issues are published, please register on the journal website.
