AIMS AND SCOPE
The Journal of Mathematics Education at Teachers College (JMETC) is a recreation of an earlier publication by the Teachers College Columbia University Program in mathematics. As a peer-reviewed, semiannual journal, it is intended to provide dissemination opportunities for writers of practice-based or research contributions to the general field of mathematics education. Although each of the past issues of JMETC focused on a theme, the journal accepts articles related to any current topic in mathematics education, from which pertinent themes for future issues may be developed.

JMETC readers are educators from pre-kindergarten through 12th grade teachers, principals, superintendents, professors of education, and other leaders in education. Articles appearing in the JMETC include research reports, commentaries on practice, historical analyses, and responses to issues and recommendations of professional interest.

COPYRIGHTS AND PERMISSIONS
Those who wish to reuse material copyrighted by the JMETC must secure written permission from the editors to reproduce a journal article in full or in texts of more than 500 words. The JMETC normally will grant permission contingent on permission of the author and inclusion of the JMETC copyright notice on the first page of reproduced material. Access services may use unedited abstracts without the permission of the JMETC or the author. Address requests for reprint permissions to: Ms. Juliana Fullon, P.O. Box 210, Teachers College Columbia, University 525 W. 120th St., New York, NY 10027.

Permission to make digital or hard copies of all or part of this work for personal or classroom use is granted without fee provided that copies are not made or distributed for profit or commercial advantage and that copies bear the full citation on the first page. Copyrights for components of this work owned by any entity other than The Program in Mathematics and Education must be honored. Abstracting with credit is permitted. To copy, republish, post on servers for commercial use, or redistribute to lists requires prior specific permission. Request permission from jmetc@tc.columbia.edu.

JOURNAL SUBSCRIPTION
The journal is converting primarily to electronic publication. All JMETC issues—including all future and archived issues—will be accessible and available for free electronically online at: www.tc.edu/jmetc. To receive email notification when new issues are published, please register on the journal website. However, if you wish to continue to receive paper copies of the journal, please send an email to Ms. Juliana Fullon at jmetc@tc.columbia.edu, including your name, affiliation, and mailing address.

CALL FOR PAPERS
This call for papers is an invitation to mathematics education professionals, especially Teachers College students, alumni, and associates, to submit articles describing research, experiments, projects, innovations, or practices in mathematics education. The journal features full reports (approximately 3500 to 4500 words) and short reports (approximately 500 to 1500 words). Full reports describe findings from specific research, experiments, projects, innovations, or practices that contribute to advancing scholarly knowledge in mathematics education. Short reports (previously “Notes from the field”) provide examples, commentary, and/or dialogue about practices out in the field of mathematics education or mathematics teacher education; examples from classroom experience are encouraged. Although past issues of JMETC focused around a theme, authors are encouraged to submit articles related to any current topic in mathematics education, from which pertinent themes for future issues may be developed. Articles must not have been submitted to or accepted for publication elsewhere. All manuscripts must include an abstract (approximately 150 words in length) and keywords. Manuscripts should be composed in Microsoft Word and follow APA format. Guest editors will send submitted articles to the review panel and facilitate the blind peer-review process. Articles for consideration should be submitted online at www.tc.edu/jmetc, and are reviewed on a rolling basis; however, to be considered for the Spring issue, articles should be received by February 1st, 2016.

CALL FOR REVIEWERS
This call for reviewers is an invitation to mathematics educators with experience in reading or writing professional papers to join the review panel for future issues of JMETC. Reviewers are expected to complete assigned reviews within three weeks of receipt of the manuscript in order to expedite the publication process. Reviewers are responsible for editorial suggestions, fact and citations review, and identification of similar works that may be helpful to contributors whose submissions appear appropriate for publication. Neither authors’ nor reviewers’ names and affiliations will be shared with one another; however, reviewers’ comments may be sent to contributors of manuscripts to guide revision of manuscripts (without identifying the reviewer). If you wish to be considered for review assignments, please register and indicate your willingness to serve as a reviewer on the journal’s website: www.tc.edu/jmetc.

CALL FOR EDITOR NOMINATIONS
Do you know someone who would be a good candidate to serve as a guest editor of a future issue of JMETC? Students in the Program in Mathematics and Education at Teachers College are invited to nominate (self-nominations accepted) current doctoral students for this position. Being asked to serve as a guest editor is a testament to the high quality and standards of the student’s work and research. In particular, nominations for a guest editor should be a current doctoral student whose scholarship is of the highest quality, whose writing skills are appropriate for editorial oversight, and whose dedication and responsibility will ensure timely publication of the journal issues. All nominations should be submitted to Ms. Juliana Fullon at jmetc@tc.edu.
