

Journal of Mathematics Education at Teachers College

Spring – Summer 2010
Inaugural Issue

A CENTURY OF LEADERSHIP IN
MATHEMATICS AND ITS TEACHING

© Copyright 2010
by the Program in Mathematics and Education
Teachers College, Columbia University
in the City of New York

TABLE OF CONTENTS

Foreword

- v **Honoring the Past—Anticipating the Future**
Bruce R. Vogeli, J. Philip Smith, Erica Walker

Preface

- vi **Addressing Critical Issues in the Preparation of Teachers of Mathematics**
Stuart Weinberg, Director of Field Experience, Teachers College, Columbia University

Articles

- 1 **Examining What Teachers Do When They Display Their Best Practice: Teaching Mathematics for Understanding**
Edward Silver, University of Michigan
- 7 **Current and Needed Research on Alternative Certification Programs**
Edward Ham, Ph.D. Candidate, Teachers College, Columbia University
- 12 **Inside the UTeach Program: Implications for Research in Mathematics Teacher Education**
Nicholas H. Wasserman, Ph.D. Candidate, Teachers College, Columbia University
- 17 **Improving Preservice Field Placements in Secondary Mathematics: A Residency Model for Student Teaching Through Lesson Study**
Theresa Gurl, Queens College of the City University of New York
- 21 **A Study of the Relationship Between Student Teachers' Expectations of Pupil Success and the Management of Classroom Discourse**
Stuart Weinberg, Teachers College, Columbia University
- 25 **Increasing Perceived Efficacy for Teaching Mathematics: An Exploratory Study**
Deborah Rosenfeld, Teachers College, Columbia University
- 36 **An Analysis of a Misconception of Probability among Future Mathematics Teachers**
Patricia Jendraszek, Mercy College
- 46 **Slideware Strategies for Mathematics Educators**
Christian Stryker, United Arab Emirates University

TABLE OF CONTENTS, continued

Notes from the Classroom

- 51** **Ideas for Middle School Mathematics**
Amanda Giambruno
Heidi Li
- 52** **Innovative Instruction in High School Mathematics**
Cindy Cheung
Meredith Klein
Kitty Yang
Meredith Brown
David Liang
- 54** **Student Research in Community College Calculus**
Sofya Nayer and Toni Kasper, Borough of Manhattan
Community College

Other

- 56** **ABOUT THE AUTHORS**

The *Journal of Mathematics Education at Teachers College* is a publication of the
Program in Mathematics and Education at Teachers College
Columbia University in the City of New York.

Guest Editor

Dr. Stuart Weinberg

Editorial Board

Dr. Philip Smith
Dr. Bruce Vogeli
Dr. Erica Walker

Corresponding Editor

Ms. Krystle Hecker

On-Line Editor

Dr. Nii Nartey
Ms. Diane Murray

Layout

Ms. Sonja Hubbert

Cover Design

Mr. Mark Causapin

This issue's cover and those of future issues will honor past and current contributors to the Teachers College Program in Mathematics and Education. Photographs are drawn from the Teachers College archives and personal collections.

This issue honors NCTM 2010 Lifetime Achievement Medalist, Dr. Henry O. Pollak, who has completed 22 years as a member of the Program in Mathematics and Education at Teachers College. Dr. Pollak has contributed so much to the mathematical preparation of the Program's graduates and to the communities of mathematics and mathematics education professionals in the United States and throughout the world.

David Eugene Smith, also pictured on the front cover, was the founding professor of the Teachers College Program in Mathematics and Education. Like Dr. Pollak, Professor Smith was widely respected by both mathematicians and educators.

Aims and Scope

The *JMETC* is a re-creation of an earlier publication by the Teachers College Columbia University Program in Mathematics and Education. As a peer reviewed, semi-annual journal, it is intended to provide dissemination opportunities for writers of practice-based or research contributions to the general field of Mathematics Education. Each issue of the *JMETC* will focus upon an educational theme. Themes planned for the 2010-2011 issues are: *Teacher Education, International Education, Curriculum, Technology, and Equity*—all centered upon mathematics and its teaching. The *JMETC* will have a distinctive niche in the world of education publishing. Our readers are educators from pre K-12 and college and university levels, and from many different disciplines and job positions—teachers, principals, superintendents, professors of education, and other leaders in education.

Manuscript Submission

We seek conversational manuscripts (2500-3000 words in length) that are insightful and helpful to mathematics educators. Articles should contain fresh information, possibly research-based, that gives practical guidance readers can use to improve practice. Examples from classroom experience are encouraged. Articles must not have been accepted for publication elsewhere. All manuscripts may be submitted electronically at www.tc.edu/jmetc. This system will help keep the submission and review process as efficient as possible.

Abstract and keywords. All manuscripts must include an abstract with keywords. Abstracts describing the essence of the manuscript should not exceed 150 words. All inquiries should be sent to Ms. Krystle Hecker, P.O. Box 210, Teachers College Columbia University, 525 W. 120th St., New York, NY 10027.

Copyrights and Permissions

Those who wish to reuse material copyrighted by the *JMETC* must secure written permission from the editors to reproduce a journal article in full or journal text of more than 500 words. The *JMETC* normally will grant permission contingent on permission of the author and inclusion of the *JMETC* copyright notice on the first page of reproduced material. Access services may use unedited abstracts without the permission of the *JMETC* or the author. Address requests for reprint permissions to: Ms. Krystle Hecker, P.O. Box 210, Teachers College Columbia University, 525 W. 120th St., New York, NY 10027.

Journal of Mathematics Education at Teachers College

Call for Papers

The “theme” of the fall issue of the *Journal of Mathematics Education at Teachers College* will be *International Mathematics Education*. This “call for papers” is an invitation to mathematics education professionals, especially Teachers College students, alumni and friends, to submit articles of approximately 2500-3000 words describing research, experiments, projects, innovations, or practices related to international or comparative mathematics education. Articles should be submitted to www.tc.edu/jmetc by September 1, 2010. The fall issue’s guest editor, Dr. Juliana Connelly, will send contributed articles to editorial panels for “blind review.” Reviews will be completed by October 1, 2010, and final drafts of selected papers are to be submitted by November 1, 2010. Publication is expected in late November, 2010.

Call for Volunteers

This *Call for Volunteers* is an invitation to mathematics educators with experience in reading/writing professional papers to join the editorial/review panels for the Fall 2010 and subsequent issues of *JMETC*. Reviewers are expected to complete assigned reviews no later than 3 weeks from receipt of the blind manuscripts in order to expedite the publication process. Reviewers are responsible for editorial suggestions, fact and citation checking, and identification of similar works that may be helpful to contributors whose submissions seem appropriate for publication. Neither authors’ nor reviewers’ names and affiliations will be shared; however, editors’/reviewers’ comments may be sent to contributors of manuscripts to guide further submissions without identifying the editor/reviewer.

If you wish to be considered for review assignments, please request a *Reviewer Information Form* from Ms. Hecker. Return the completed form to Ms. Krystle Hecker at JMETS@tc.columbia.edu or Teachers College, Columbia University, 525 W 120th St., Box 210, New York, NY 10027.

Looking Ahead

Anticipated themes for future issues are:

Spring 2011	Curriculum
Fall 2011	Technology
Spring 2012	Equity
Fall 2012	Leadership
Spring 2013	Psychology

TO OBTAIN COPIES OF JMETC

To obtain additional copies of *JMETC*, please visit the Journal’s website www.tc.edu/jmetc. Permission to make digital or hard copies of all or part of this work for personal or classroom use is granted without fee provided that copies are not made or distributed for profit or commercial advantage and that copies bear the full citation on the first page. Copyright for components of this work owned by others than The Program in Mathematics and Education must be honored. Abstracting with credit is permitted. To copy, to republish, to post on servers for commercial use, or to redistribute to lists requires prior specific permission. Request permission to publish from: JMETS@tc.columbia.edu.

FOREWORD

Honoring the Past—Anticipating the Future

This first issue of the *Journal of Mathematics Education at Teachers College* marks the reincarnation of an earlier Teachers College series entitled *Contributions to Mathematics Education*. That series dates back to the era of David Eugene Smith, the founder of the field of mathematics education, who arranged and financed the publication of Teachers College dissertations, including the first two theses in the field written in 1906 by Alva Walker Stamper and Lambert Lincoln Jackson. Although financial circumstance brought on by the Great Depression of the 1930s and World War II and its aftermath limited publication to selected theses, the series *Contributions to Mathematics Education* continued until the final publication appeared in 1970 as a tribute to Professor Myron F. Roskopf by his doctoral graduates.

The resurrected version of the *Contributions to Mathematics Education* is not devoted to the publication of doctoral dissertations, but rather is a semi-annual journal that will feature both practice-based and research articles of interest to today's broad spectrum of mathematics education professionals. The *Journal of Mathematics Education at Teachers College (JMETC)* should provide peer-reviewed publication opportunities for novice as well as experienced mathematics educators. Each issue of the *JMETC* will focus upon a theme to permit contributors to prepare thematic articles for future issues. Themes selected include the first issue's theme of *Teacher Education* and subsequent themes of *International Education* (fall 2010), *Curriculum* (spring 2011), and *Technology* (fall 2011). All issues and themes will emphasize mathematics and mathematics teaching.

While *JMETC's* Editorial Board cannot hope to match the skill and wisdom of previous sponsors of the series *Contributions to Mathematics Education*, including David Eugene Smith, John Roscoe Clark, William David Reeve and Howard Franklin Fehr, we hope our colleagues in the community of mathematics education professionals will find the contributions of the authors of *JMETC* useful additions to the growing body of literature in the field.

Bruce R. Vogeli
J. Philip Smith
