Mr. Mark Causapin

Dr. Robert Taylor was selected by the Teachers College sponsored Teachers for East Africa program to teach mathematics at Makerere University. He returned to TC as an instructor in the Department of Mathematics, Statistics, and Computing in Education where he developed an innovative programming language (FPL) intended to introduce educators to the then-new field of computer programming. His seminal work entitled *Computers: Tutor, Tool, Tutee* led to leadership in the new field of computer education. Dr. Taylor completed 33 years as a member of the Teachers College faculty in 2009.

Dr. Carl N. Shuster completed the doctorate at Teachers College in 1940 under the guidance of William David Reeve. Shuster joined the TC faculty at Reeve’s invitation and soon was recognized as the nation’s leading advocate of the use of traditional technology, especially measurement technology, in the mathematics classroom. Dr. Shuster served as President of the National Council of Mathematics from 1946 to 1948 and concluded his career as Distinguished Professor of Mathematics at Trenton State University.

**Aims and Scope**
The *JMETC* is a re-creation of an earlier publication by the Teachers College Columbia University Program in Mathematics. As a peer-reviewed, semi-annual journal, it is intended to provide dissemination opportunities for writers of practice-based or research contributions to the general field of mathematics education. Each issue of the *JMETC* will focus upon an educational theme. The themes planned for the 2012 Spring-Summer and 2012 Fall-Winter issues are: *Evaluation and Equity*, respectively.

*JMETC* readers are educators from pre-K-12 through college and university levels, and from many different disciplines and job positions—teachers, principals, superintendents, professors of education, and other leaders in education. Articles to appear in the *JMETC* include research reports, commentaries on practice, historical analyses and responses to issues and recommendations of professional interest.

**Manuscript Submission**
*JMETC* seeks conversational manuscripts (2,500-3,000 words in length) that are insightful and helpful to mathematics educators. Articles should contain fresh information, possibly research-based, that gives practical guidance readers can use to improve practice. Examples from classroom experience are encouraged. Articles must not have been accepted for publication elsewhere. To keep the submission and review process as efficient as possible, all manuscripts may be submitted electronically at www.tc.edu/jmetc.

**Abstract and keywords.** All manuscripts must include an abstract with keywords. Abstracts describing the essence of the manuscript should not exceed 150 words. Authors should select key words from the menu on the manuscript submission system so that readers can search for the article after it is published. All inquiries and materials should be submitted to Ms. Krystle Hecker at P.O. Box 210, Teachers College Columbia University, 525 W. 120th St., New York, NY 10027 or at JMETC@tc.columbia.edu

**Copyrights and Permissions**
Those who wish to reuse material copyrighted by the *JMETC* must secure written permission from the editors to reproduce a journal article in full or in texts of more than 500 words. The *JMETC* normally will grant permission contingent on permission of the author and in elusion of the *JMETC* copyright notice on the first page of reproduced material. Access services may use unedited abstracts without the permission of the *JMETC* or the author. Address requests for reprint permissions to: Ms. Krystle Hecker, P.O. Box 210, Teachers College Columbia University, 525 W. 120th St., New York, NY 10027.

TABLE OF CONTENTS

Foreword

v Honoring the Past—Anticipating the Future
J. Philip Smith, Bruce R. Vogeli, Erica Walker

Preface

vi From Slide Rules to Video Games: Technology in Mathematics Classrooms
Diane R. Murray

Articles

1 Mathematical Visualization
Jonathan Rogness, University of Minnesota

8 Randomized Control Trials on the Dynamic Geometry Approach
Zhonghong Jiang, Alexander White, Alana Rosenwasser
Texas State University – San Marcos

18 The Frame Game
Michael Todd Edwards, Dana C. Cox
Miami University at Oxford, Ohio

28 Preserving Precious Instruments in Mathematics History: The Educational Museum of Teachers College and David Eugene Smith’s Collection
Diane R. Murray, Teachers College Columbia University

33 Tech@MoMath: Technology Use in the Forthcoming Museum of Mathematics
Heather Gould, Teachers College Columbia University
Catherine Reimer, The School at Columbia

37 The Mathematics of Global Change
Kurt Kreith, University of California at Davis

45 Toward an Analysis of Video Games for Mathematics Education
Kathleen Offenholley, Borough of Manhattan Community College

49 Current Challenges in Integrating Educational Technology into Elementary and Middle School Mathematics Education
Sandra Y. Okita, Azadeh Jamalian
Teachers College Columbia University
TABLE OF CONTENTS, continued

59  Math Is Not a Spectator Sport: The Effect of Online Homework-Completion Tutoring On Community College Remedial Mathematics Performance  
    Alice W. Cunningham, Olen Dias, Nieves Angulo  
    Hostos Community College, City University of New York

66  Integrating External Software into SMART Board™ Calculus Lessons  
    Allen Wolmer, Yeshiva Atlanta High School  
    Leonid Khazanov, Borough of Manhattan Community College

73  Something Drawn, Something Touched, Something Scrolled: An Exploratory Comparison of Perimeter and Area Interventions Including Kidspiration  
    Dino Sossi, Azadeh Jamalian, Shenetta Richardson  
    Teachers College Columbia University

78  NOTES FROM THE COMPUTER LABORATORY

   Insights of Digital Mathematics Textbooks  
    Hoyun Cho, Mercy College

   Basic Triangle Properties Through Geometer’s Sketchpad  
    Nasriah Morrison, Teachers College, MA Candidate

   Discovering Blackbeard’s Treasure by SMART Board™  
    Emily Ying Liao, Uncommon Charter High School

   Programming Probability  
    Paul Morrill, New Design Middle School

   GeoGebra in the Geometry Classroom  
    Christina Constantinou, High School East, Half Hollows Hills Central School District

FOREWORD

Honoring the Past—Anticipating the Future

The fourth issue of the *Journal of Mathematics Education at Teachers College* continues the theme of highlighting issues and individuals of importance to the field of mathematics education. The *Journal* is a resurrection of an earlier publication of the Program in Mathematics entitled *Contributions to Mathematics Education*. It is devoted to the publication of articles related to both practice-based issues and research of interest to today’s broad spectrum of mathematics education professionals.

The *Journal of Mathematics Education at Teachers College* (JMETC) should provide opportunities for peer-reviewed publication for novice as well as experienced mathematics educators. Each issue of the JMETC will focus upon a theme to permit contributors to prepare thematic articles for future issues. The theme selected for this issue of the JMETC is *Technology in Mathematics Education*. Future themes include—*Evaluation* (Spring 2012), and *Equity* (Fall 2012). All issues and themes will emphasize mathematics and its teaching.

J. Philip Smith
Bruce R. Vogeli
Erica Walker
Call for Papers
The "theme" of the fall issue of the Journal of Mathematics Education at Teachers College will be Evaluation. This "call for papers" is an invitation to mathematics education professionals, especially Teachers College students, alumni and friends, to submit articles of approximately 2500-3000 words describing research, experiments, projects, innovations, or practices related to evaluation in mathematics education. Articles should be submitted to Ms. Kristle Hecker at JMETC@tc.columbia.edu by January 21, 2012. The spring issue's guest editor, Ms. Heather Gould, will send contributed articles to editorial panels for "blind review." Reviews will be completed by February 1, 2012, and final drafts of selected papers are to be submitted by March 1, 2012. Publication is expected by April 15, 2012.

Call for Volunteers
This Call for Volunteers is an invitation to mathematics educators with experience in reading/writing professional papers to join the editorial/review panels for the spring 2012 and subsequent issues of JMETC. Reviewers are expected to complete assigned reviews no later than 3 weeks from receipt of the manuscripts in order to expedite the publication process. Reviewers are responsible for editorial suggestions, fact and citations review, and identification of similar works that may be helpful to contributors whose submissions seem appropriate for publication. Neither authors' nor reviewers' names and affiliations will be shared; however, editors'/reviewers' comments may be sent to contributors of manuscripts to guide further submissions without identifying the editor/reviewer.

If you wish to be considered for review assignments, please request a Reviewer Information Form. Return the completed form to Ms. Kristle Hecker at hecker@tc.edu or Teachers College Columbia University, 525 W 120th St., Box 210, New York, NY 10027.

Looking Ahead
Anticipated themes for future issues are:

- Spring 2012: Evaluation
- Fall 2012: Equity
- Spring 2013: Leadership
- Fall 2013: Modeling
- Spring 2014: Teaching Aids

TO OBTAIN COPIES OF JMETC
To obtain additional copies of JMETC, please visit the Journal's website www.tc.edu/jmetc. The cost per copy delivered nationally by first class mail is $5.00. Payment should be sent by check to JMETC, Teachers College Columbia University, 525 W 120th St., Box 210, New York, NY 10027.

Permission to make digital or hard copies of all or part of this work for personal or classroom use is granted without fee provided that copies are not made or distributed for profit or commercial advantage and that copies bear the full citation on the first page. Copyrights for components of this work owned by other than The Program in Mathematics and Education must be honored. Abstracting with credit is permitted.
