The *Journal of Mathematics Education at Teachers College* is a publication of the Program in Mathematics and Education at Teachers College, Columbia University in the City of New York.

**Guest Editor**
Mr. Christopher J. Huson

**Editorial Board**
Dr. Philip Smith  
Dr. Bruce Vogeli  
Dr. Erica Walker

**Corresponding Editor**
Ms. Krystle Hecker

**On-Line Editor**
Dr. Diane R. Murray

**Layout**
Ms. Sonja Hubbert

**Photo Editor and Cover Design**
Dr. Mark Causapin

J. Philip Smith holds degrees in mathematics and education from Dartmouth, Stanford, and Columbia Universities. He rose from the rank of assistant instructor at Southern Connecticut State University to full professor, Department chair, Dean and Provost and, finally, acting President. Throughout his career at SCSU he served as a doctoral sponsor to more than 60 Teachers College students and as a highly regarded teacher of mathematics. Dr. Smith represented Teachers College as a leader of tours and workshops in South America, Africa, and Asia.

John Roscoe Clark joined the Teachers College faculty in 1918. Clark served as the principal of the Horace Mann Lincoln School and as the Chairman of TC’s Department of Mathematics Education. He and Mrs. Clark were the authors of widely used textbooks for elementary and middle school students and teachers. John Roscoe Clark was appointed the Honorary President of the National Council of Teachers of Mathematics in 1970 and served in that position until his death in 1986.

**Aims and Scope**
The *JMETC* is a re-creation of an earlier publication by the Teachers College Columbia University Program in Mathematics. As a peer-reviewed, semi-annual journal, it is intended to provide dissemination opportunities for writers of practice-based or research contributions to the general field of mathematics education. Each issue of the *JMETC* focuses upon an educational theme. The theme planned for the 2013 Fall-Winter issue is *Mathematical Modeling and Creativity*.

*JMETC* readers are educators from pre-K–12 through college and university levels, and from many different disciplines and job positions—teachers, principals, superintendents, professors of education, and other leaders in education. Articles to appear in the *JMETC* include research reports, commentaries on practice, historical analyses, and responses to issues and recommendations of professional interest.

**Manuscript Submission**
*JMETC* seeks conversational manuscripts (2,500-3,500 words in length) that are insightful and helpful to mathematics educators. Articles should contain fresh information, possibly research-based, that gives practical guidance readers can use to improve practice. Examples from classroom experience are encouraged. Articles must not have been accepted for publication elsewhere. Manuscripts should be emailed in Microsoft Word format to Ms. Krystle Hecker at JMETC@tc.columbia.edu.

**Abstract and keywords.** All manuscripts must include an abstract with keywords. Abstracts describing the essence of the manuscript should not exceed 150 words. All inquiries and materials should be submitted to Ms. Krystle Hecker at P.O. Box 210, Teachers College Columbia University, 525 W. 120th St., New York, NY 10027 or at JMETC@tc.columbia.edu.

**Copyrights and Permissions**
Those who wish to reuse material copyrighted by the *JMETC* must secure written permission from the editors to reproduce a journal article in full or in texts of more than 500 words. The *JMETC* normally will grant permission contingent on permission of the author and inclusion of the *JMETC* copyright notice on the first page of reproduced material. Access services may use unedited abstracts without the permission of the *JMETC* or the author. Address requests for reprint permissions to: Ms. Krystle Hecker, P.O. Box 210, Teachers College Columbia University, 525 W. 120th St., New York, NY 10027.

Call for Papers
The “theme” of the 2013 Fall-Winter issue of the Journal of Mathematics Education at Teachers College will be Mathematical Modeling and Creativity. This “call for papers” is an invitation to mathematics education professionals, especially Teachers College students, alumni and friends, to submit articles of approximately 2500-3500 words describing research, experiments, projects, innovations, or practices related to mathematical modeling and creativity in mathematics education. Articles should be submitted to Ms. Krystle Hecker at JMETC@tc.columbia.edu by September 1, 2013. The fall issue’s guest editor will send contributed articles to editorial panels for “blind review.” Reviews will be completed by October 1, 2013, and final manuscripts of selected papers are to be submitted by October 15, 2013. Publication is expected by November 30, 2013.

Call for Volunteers
This Call for Volunteers is an invitation to mathematics educators with experience in reading/writing professional papers to join the editorial/review panels for the fall 2013 and subsequent issues of JMETC. Reviewers are expected to complete assigned reviews no later than 3 weeks from receipt of the manuscripts in order to expedite the publication process. Reviewers are responsible for editorial suggestions, fact and citations review, and identification of similar works that may be helpful to contributors whose submissions seem appropriate for publication. Neither authors’ nor reviewers’ names and affiliations will be shared; however, editors'/reviewers’ comments may be sent to contributors of manuscripts to guide further submissions without identifying the editor/reviewer.

If you wish to be considered for review assignments, please request a Reviewer Information Form. Return the completed form to Ms. Krystle Hecker at jmetc@tc.edu or Teachers College Columbia University, 525 W 120th St., Box 210, New York, NY 10027.

TO OBTAIN COPIES OF JMETC
To obtain additional copies of JMETC, please visit the Journal’s website www.tc.edu/jmetc. The cost per copy delivered nationally by first class mail is $5.00. Payment should be sent by check to JMETC, Teachers College Columbia University, 525 W 120th St., Box 210, New York, NY 10027.

Permission to make digital or hard copies of all or part of this work for personal or classroom use is granted without fee provided that copies are not made or distributed for profit or commercial advantage and that copies bear the full citation on the first page. Copyrights for components of this work owned by other than The Program in Mathematics and Education must be honored. Abstracting with credit is permitted. To copy, to republish, to post on servers for commercial use, or to redistribute to lists requires prior specific permission. Request permission from JMETC@tc.columbia.edu.
